FRANKLIN TEMPLETON | ClearBridge

ClearBridge Global Infrastructure Income Fund - Hedged

Class A: TGP0016AU Factsheet as of 30 September 2026

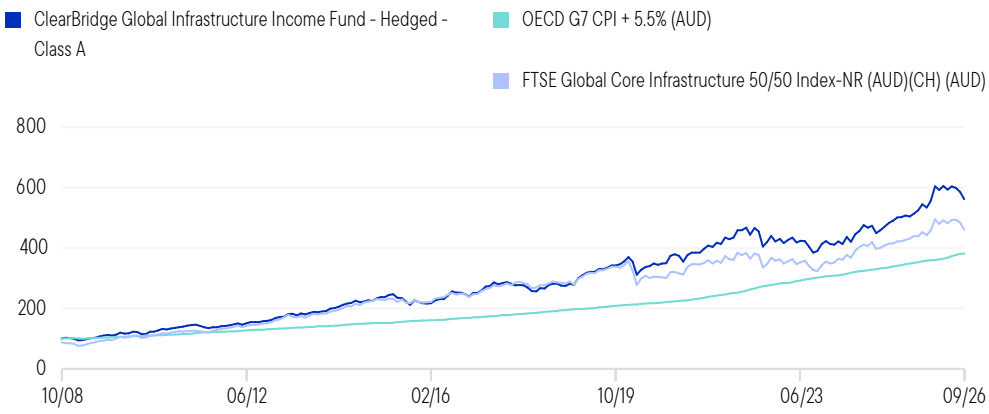

Investment Overview

The Fund aims to provide investors with regular and stable income comprised of dividends, distributions and interest received plus capital growth from a portfolio of global infrastructure securities while hedging the Fund's currency exposure back to AUD and to outperform the benchmark, being an accumulation index comprised of the OECD G7 Inflation Index plus 5.5% per annum.

Fund Highlights

- **Specialist team:** An actively managed income-orientated portfolio of global listed infrastructure securities managed by a long-tenured specialist infrastructure investment team.
- **Reliable income with inflation protection:** Infrastructure companies provide predictable income distributions due to stable earnings derived from the underlying asset. Regulatory and contractual frameworks help lead to inflation-linked revenue streams, giving the portfolio the potential to provide investors with a hedge against inflation.
- **Lower Volatility:** Due to the essential nature of infrastructure assets, demand is relatively stable and may provide lower volatility than traditional equities. Even at times of economic weakness, consumers continue to use water, electricity and gas, drive cars on toll roads and use other essential infrastructure services.
- **Considered Risk Management:** ClearBridge's specialist infrastructure investment team is focused on understanding and managing the risk-return dynamics unique to infrastructure assets. This insight drives a disciplined, bottom-up investment process that is designed to deliver stable income and long-term value.

ClearBridge Investments is an active equity manager offering a broad range of strategies across global developed and emerging markets, local markets, real assets, and income.

What are the Risks?

All investments involve risks, including possible loss of principal. **Fixed income securities** involve interest rate, credit, inflation and reinvestment risks, and possible loss of principal. As interest rates rise, the value of fixed income securities falls. **Changes in the credit rating** of a bond, or in the credit rating or financial strength of a bond's issuer, insurer or guarantor, may affect the bond's value. **Low-rated, high-yield bonds** are subject to greater price volatility, illiquidity and possibility of default. **Equity securities** are subject to price fluctuation and possible loss of principal. **Dividends may fluctuate** and are not guaranteed, and a company may reduce or eliminate its dividend at any time. **International investments** are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in **emerging markets**. The **investment style** may become out of favour, which may have a negative impact on performance. **Active management** does not ensure gains or protect against market declines. **Liquidity risk** arises when adverse market conditions affect the ability to sell assets when necessary. For further information relating to the risks that are relevant to this Fund, please refer to the relevant Product Disclosure Statement, Additional Information Booklet and Target Market Determination for the Fund found on our website here www.franklintempleton.com.au.

Important Information

Past performance is not a reliable indicator of future performance. This publication is issued for information purposes only and does not constitute investment or financial product advice. It expresses no views as to the suitability of the services or other matters described in this document as to the individual circumstances, objectives, financial situation, or needs of any recipient. You should assess whether the information is appropriate for you and consider obtaining independent taxation, legal, financial or other professional advice before making an investment decision. Please read the relevant Product Disclosure Statements (PDSs) and any associated reference documents before making an investment decision. In accordance with the Design and Distribution Obligations requirements we maintain Target Market Determinations (TMD) for each of our Funds. All documents can be found via www.franklintempleton.com.au or by calling 1800 673 776. Issued by Franklin Templeton Australia Limited (ABN 76 004 835 849, AFSL 240827). Franklin Templeton Australia Limited as Responsible Entity has appointed ClearBridge Investments Limited as the fund manager of the ClearBridge Global Infrastructure Income Fund - Hedged (ARSN 132 182 631).
